Existing Anchor Information:

Shape: Round or Square (Circle One) Inside Diameter _____

Depth _____ Distance from Pool Edge _____

Accurate site measurements are required in order to verify the appropriate lift for your application. Please be as accurate and thorough as possible. If you do not see a profile that closely matches your pool please take several photos of the edge and deck area, draw the design, and then complete the profile with the appropriate measurements.

Fill out a form for each pool, spa or hot tub.

IMPORTANT

Your Signature is required to verify the dimensions and style of the pool design. We cannot process your order without a signed profile and the responsibility for accuracy in the information provided. Ganga assumes no responsibility for errors in the information provided. Please contact us if you have questions.
